In 2009, University of Indonesia hosted an International Conference on World University Rankings. The conference attended by World University ranking, such as Webometrics, HEEACT, and others. In 2010, Prof. Dr. Gumilar Rusliwa Somantri as Rector of University of Indonesia at the time initiated UI GreenMetric World University Rankings and appointed Prof. Riri Fitri Sari as the chairperson. Soon a team consisting of Junaidi, Budi Hartono, Allan Lauder, and Prof. Prof. Ir. Gunawan Tjahjono formulated UIGM Questionnaire and introduce UI Ranking to the world. In 2011, it added 11 new indicators in 5 categories and add Education as category in 2012. By the year 2015, a massive improvement was introduced including carbon footprint and a more systematic data collection to focus the activity. UIGM took policy into action in 2016 and global partnership for sustainable future in 2017. To reach and coordinate more universities participant. UI GWURN was established in 2017 to having national coordinates in each country. To date, 515 universities from 75 countries participate in the rankings.

Since its established in 2010, it has been increasingly recognized the first and only universities ranking sustainability and has been used by participant university to benchmark and do continuous improvement in the area of sustainability. As member of IREG, more activities and collaboration among the participant universities are expected to achieve our common goal: sustainable university for sustainable future.
