

INRTU programs against poverty

The report mirrors the INRTU approach across the themes of knowledge and standards of living. INRTU is the largest university in the Irkutsk region focused on the issues of poverty and equality. The University is taking part in global development helping to influence policy and practices and improve people's lives.

Student financial support

INRTU is committed to ensure that financial issues do not present an obstacle for learners. Our University generously supports students from low-income households and countries providing free education, grants, tuition discounts and portfolio contests.
