PUBLIC ENGAGEMENT

Grant for project

A master student of INRTU won a grant for the implementation of the project [PROMOTION](#) of Irkutsk. The initiative involves the organization of a conference and a scientific slam on legal topics at the University. The project was defended in November at the city Youth Forum.

RESEARCH

INRTU students take part in different scientific conferences, Olympiads and [competitions](#). As a result, the winners receive diplomas. They are able to use their diplomas when applying for a rating scholarship, etc.

Workshops

[Workshops of student scientific associations](#) are held in INRTU co-working center. The students discuss ideas for attracting young people to research projects, new tools for the development of scientific societies and design bureaus.

OPERATIONS

Scholarships

INRTU students who are actively engaged in science are invited to participate in the competition for a [governor's scholarship](#).

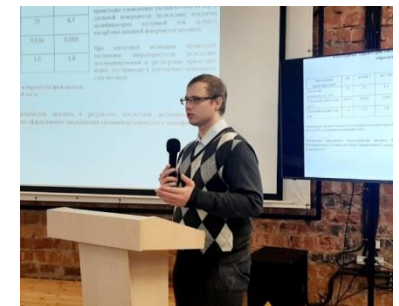

[Financial incentives are awarded for outstanding achievements in research activities.](#)

Outstanding students, who study on a budget basis, have an opportunity to receive an increased ranking scholarship. Another opportunity is given to the students studying on a [commercial basis](#). They can receive the academic scholarship for their achievements in various fields.

Co-working Center

Tochka Kipeniia is a [co-working center](#) that exists for educational and project activities of university students and employees. The Co-working Center [implements modern forms of extracurricular activities](#) to develop students' professional competencies. In addition, a co-working center helps university students and staff avoid the problems associated with working at home alone, as well as unpredictable factors. Technopark is another safe platform at INRTU for open and frank discussion at different levels.

Financial benefits

The university makes payments such as incentive allowances and additional [benefits](#) to the university staff, based on an effective contracts system of scientific and pedagogical staff. One of the main tasks of this system is the formation of an effective system of material and moral stimulation of the university staff.
